Dear Parents,

Summer Vacation is a time full of fun and frolic, going for picnics, playing for long hours, exploring new places and much more. But, there is a lot more to do to make the vacation more interesting and meaningful. We have planned some interesting activities for kids to enhance their life skills and values.. So, get ready to enjoy the vacation in your child's company.

-----FEW GUIDELINES TO KEEP IN MIND-----

- The way we follow our time table in school, we have also planned a set of summer life saving activity in a form of weekly time table for our students. Children are **free to choose** the activities for each day.
- Using **old notebook covers or cards**, students have to make a week's calendar, mentioning the day and date for each activity.
- Click pictures of all the activities they do and paste them in the calendar to make it more attractive.
