EAST OF KAILASH, NEW DELHI
HOLIDAY HOMEWORK (2019- 2020)**

CLASS- VI

The FAB 5!

“Every Accomplishment Starts With A Decision To Try”

So this summer, let us try to understand how we can, in our own little way, try to accomplish the major goal of keeping our mother earth safe from waste.

GENERAL GUIDELINES :

- Creativity and originality of the work will be appreciated.
- Homework should be done neatly on A4 size coloured sheets.
- Compile and put your ‘Summer Challenge’ in an illustrative portfolio with an eco-friendly cover. Submit it in an attractive paper bag. [Use ‘The FAB 5’]

Imagine yourself to be ‘The Green Avengers’. The series of activities that you propose to carry out will surely contribute in a big way to make your city the most beautiful place on the earth. Your ‘Summer Challenge’ during your vacation is titled ‘The FAB 5!’

So, Let the Journey Begin.....

Activity 1:

It is 700 years in the future. A closer view reveals that the skyscrapers are all constructed out of garbage, neatly compacted and piled on top of one another. In all the land, only one creature stirs. This is WALL-E, the last of the functioning solar-powered robots.....

Find out more during your summer holidays! Watch the movie WALL-E...

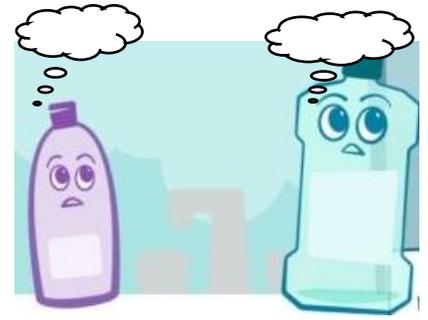

Create a storyboard which shows different scenes(at least 6) from the movie. You may refer to the image given or get wild with imagination!

Activity 2:

Did you know that items like shampoo and mouthwash bottles are just as recyclable as milk cartons and water bottles? Choose two products, which according to you should join their friends at the recycling center or in the blue bin and definitely should not be thrown in the trash.

It's you, 'The Green Avengers' who would decide their destiny. Create a humorous and interesting comic strip (8-10 bubbles) between the two of them, the end note being their final destination.

Activity 3

The 'World's 1st theme based park with all the seven wonders replicated using waste materials!' is right here in Delhi. Visit this beautiful & unique theme park in your summer break and mark the places on a world map whose iconic monuments stand tall at the park. Do share your experience about your visit in the shape of a scroll. Substantiate it with pictures and the ticket stubs from your visit.

Activity 4

You, 'The Green Avengers' have thought of conducting a survey in your neighbourhood to find out how much e-waste is generated in each of the families (at least 3) and how do they deal with it. But before you begin, we have framed some questions that you may ask when you meet the members of the family.

- If you made a pile of all the electronic devices (cell phones, computers, stereos, television, MP3 players, video game system, remote- control, toys etc.) that your family has gotten rid of since you were a baby, how big that pile would be.
- Would it be taller than you?
- Would it fit better in a wheelbarrow or in a pickup truck?
- Did you just throw it in the trash?

Type of Electronic Device	Devices Disposed of and/or Replaced in the last 3 Years	What happened to each device?				
		Thrown Away	Reused	Recycled	Stored	Unsure

Now that your questionnaire is ready, conduct a survey in your neighbourhood with the help of table given and examine how people deal with e-waste and which electronics devices, if any are most likely to be recycled.

Activity 5

Using the data collected during your survey from your neighbourhood, prepare a pie chart for the best two families who have made optimum use of The FAB 5. Compare both families and if we presume that each of the family generated 360 kilograms of waste in 1 month, find the quantity of each of the category for the end result of the same (if it is thrown away or reused or recycled etc) .

Activity 6

ऐसे पोस्टर बनाइए जो आपकी कॉलोनी के लोगो में जागरूकता पैदा करें किये घर से निकलने वाले जैविक, रासायनिक तथा प्लास्टिक के अपशिष्ट पदार्थोंको अलग-अलग डिब्बों में डालें ताकि इनका निस्तारण भली-भांति किया जासके। इन पोस्टर्सको अपनी कॉलोनी के सामुदायिक भवन में तथा अन्य सूचनापटों; छवजपबम ठवंतकद्ध परचिपकाते हुए अपनी तस्वीर खींचकर उसे ग्रीष्मावकाशगृह कार्यमेंसलंगन करें। इसके उपरान्त आप अपने आस-पड़ोस के घरोंमें जाकर पता लगाएँ कि लोगो ने इन पोस्टर्सको पढ़ कर क्या-क्या कदम उठाए ? इस मुलाकात की तस्वीर के साथ उनसे हुई बात-चीत को भी आकर्षक तरीके से लिखें।

Activity 7

Create a planter using any old can or plastic bottles and decorate with any recycled materials. Some of the examples are given below. The planters will then be sold During PTM and the money collected will be used to build vertical garden in nearby locality. The project of building vertical garden is taken up by senior students as part of Youth Leader Project.

While we want you to have fun during summer break, we also want you to be thinkers and doers. The guidelines given below will help you to be both, while enjoying your freedom at the same time.

While we want you to have fun during summer break, we also want you to be thinkers and doers. The guidelines given below will help you to be both, while enjoying your freedom at the same time.

- 'Bonding is the most important value to be nurtured' Try to spend quality time with your elders and share your thoughts and ideas with them.
- 17th June is "Father's Day". Make it special for your father and surprise him in a thoughtful manner.
- *Yoga is the journey of the Self, to the Self, through the Self.* International Yoga Day is on 21st June. Learn five simple asanas and practice them with your family and friends. Share it on Instagram.
- 'Reading nurtures your soul'... Keep aside at least an hour to read good novels. When you visit malls, make sure you drop in at a bookstore.

- Try to utilize your time in such a way that you are able to sharpen your intellect as well as tone up your body by playing your favourite sport.
