

**TAGORE INTERNATIONAL SCHOOL
VASANT VIHAR, N. DELHI
HOLIDAY HOMEWORK – (2019-20)
CLASS XI B**

At TIS, we endeavor to inculcate holistic learning hence we constantly strive towards entwining academic excellence with experiential learning. We encourage our students to imbibe values and learn the much needed life skills to survive. They are encouraged to be conscious citizens of the country, be aware of the need to protect the environment and utilize the meager resources with care.

Summer vacations are a good time to get associated with a social organization and do community service. It would be a good idea to join an NGO engaged in feeding the underprivileged, taking care of the elderly, educating the poor or any other cause close to your heart!

Life is all about choices. So, this year, the theme for the Holiday Homework is 'The Power of Choice'. Choose your area of interest, exercise your choice regarding the medium of presentation and put your best foot forward.

HISTORY

"You are free to make whatever choice you want, but you are not free from the consequences of the choice."

What does the above quote mean to you? Do you agree with it? How would you associate "History" with it?

Get creative this summer and express your thoughts, beliefs, understanding, knowledge, opinions. Tell how the present is an outcome of the choices made in the past? or how our future can be influenced by the choices made in the past.

Grab a pen, pencil, brush, keyboard, etc. and let your views take any shape. You can talk about yourself, any personality, place, food, colours, clothes, culture or any thing of your choice. This is an opportunity to do your homework, as you like!

MATH

Casting vote to a particular party is a choice every eligible voter has to make during elections . As the election fever has been raging since the last few days in our country , what better than to analyze the choice people made in the current elections as well as in the past elections and how their choices affected the performance of different political parties.

1. Conduct a survey of 100 people to find out /which party they had voted for in the last two elections and make a mathematical representation of the same (Venn Diagrams , pie charts , bar graphs etc)
2. Find out the number of seats won by some prominent nationalist parties in the last 5 elections and represent the data on separate graphs for each party .

Conclude with your interpretation of the survey and the performance of the different parties .

POLITICAL SCIENCE

Interpret the idea of 'Power of choice in a democracy' and research on the role of a mature electorate. Select a creative form of presentation to present your report!

PSYCHOLOGY

- Use your 'Power of choice' to choose a topic related to Human Behavior for conducting a psychological research. There are diverse areas where you can study human behaviours, such as
- In organizations
- Group influences
- Group behaviors
- Individual behaviors
- Behavior due to personal experience
- Behavior across developmental stages

Frame a hypothesis based on your research problem.

PAINTING

Watch a movie based on art and artist. E.g. Lust for Life (Vincent Van Gogh)

In response to the movie, write an Essay/ prepare a presentation/ write an article and make a painting on the topic - "What Inspires me",

ECONOMICS

POWER OF CHOICE- A RIGHT OR A RESPONSIBILITY?

Visit a vegetable market(local vegetable market, Big Bazar, Safal store) and compare the fluctuations in the prices of any five vegetables every week. Represent the information collected in the form of bar diagrams.

Analyze why a consumer makes different choices.

HOME SCIENCE

MY LIFE, MY CHOICE!

In our day-to-day life, we make numerous choices with respect to the clothes we wear, how we talk, to whom we talk, food we eat, how we eat, use of resources like time or human resources like skills, attitude etc.

You have to represent your choices with respect to the five domains under home science, and how they influence your life- present or future. Additionally, you may suggest ways to take any corrective measures, if any.

GEOGRAPHY

Life is a series of continuous choices we make every day, so the power of choice is not something to take lightly. You can either stay where you are (stuck and stagnant), wish that things would go back to how they were (and stay stuck in the past), or step up and show up for yourself by making a New Choice that propels you forward in life.

In every moment of life you have a choice. Select any one of the following topics for research and present your ideas and findings through a presentation.

1. Is being Indian a matter of geography or choice?
2. Geography is ruled by political parties
3. All the Religions in the world are the feathers of the same Bird.

ENGLISH

1. Write a Book review in about 100- 150 words on "The Adventures of Sherlock Holmes"(Dover Thrift Editions)

2. Write an essay on the topic: A Free and Fair Election is the Keystone to successful Democracy. Word limit 200- 250 words

3. Cut out samples of Classified Advertisements under the following heads and paste them in a scrap book. List the salient features of each category. Word limit 50 words

- a) To-Let
- b) For Sale
- c) Matrimonial
- d) Situation Vacant
