AUGUST Math

- 1. Addition (3 classes)
- 2. Subtraction (4 classes)
- 3. Measurements - Capacity and Weight (statement questions) {It will be taken along with concepts of addition and subtraction}

-justify properties to solve 3 to 5 subtraction questions
 -solve and write 4 digit subtraction questions with/without borrowing (5 to 6 questions)
 -identify and use the inverse relationship between addition and subtraction
 -use addition and subtraction to check calculations (solve 5 to 6 questions)
 -interpret and solve 2 to 3 statement questions related to real life situations
 -solve 4 to 5 questions related to missing number, number facts and place value
 -add and subtract measures involving grams and kilograms in life situations

No regrouping!!
